

Love Money

*Have you heard, Dear Ones?
A new hope has come to town
In fields of dancing flowers
Like endless gardens they abound
Love money—the answer to every test
Love money—can't make right under arrest
Love money—gotta give away all you get
Love money—macro economics was reset*

*Love money
Everyone shares in this wealth
So that no one gets left behind
'Cause the world done turned, baby
Behold the universe has aligned
But you must believe to see the signs!
Love money—the answer to every test
Love money—can't make right under arrest
Love money—gotta give away all you get
Love money—macro economics was reset*

*Love money
Enough for you, enough for me; Straight from Heaven, abundantly;
Without delay or late fees; here comes the truth, baby...
even the worst liars can't flee!*

*Love money—the answer to every test
Love money—can't make right under arrest
Love money—gotta give away all you get
Love money—macro economics was reset*

*Love money
So as all bad deeds now go punished
And acts of kindness become currency
Witness hellions lose their minds
After centuries hidden in our scarcity
—justice enforced... righteously.*
