

Northern Lights

(Verse 1)

I found myself alone
A stranger, homeless, no friends
Then darkness absorbed me whole
So I looked up, saw colors without end

(Pre chorus)

And that's when I knew...
All my reckless ways had to amend

(Chorus)

Can you hear the Northern Lights?
A kaleidoscope beyond the hype
Yes, can you hear the Northern Lights?
Where there lives no fear
If you shine for what's right
Like the Northern lights

(Verse 2)

Only in dead silence
Does honest truth scream
Who am I big world?
A mistake or cosmic ray of eternity

(Pre-Chorus)

Hoping to earn my soul's sovereignty

(Chorus)

Can you hear the Northern Lights?
A kaleidoscope beyond the hype
Yes, can you hear the Northern Lights?
Where there lives no fear
If you shine for what's right
Like the Northern lights

(Bridge)

—born into this fight—
—never knowing why—
—being so damn polite—
—time to reach their heights!!!
—time to reach their heights!!!

(Revised Chorus)

I can hear the Northern Lights
Pinholed dreams dancing with delight
Yes, I can hear the Northern Lights
Where joy starts less all self-doubt
Like the Northern Lights
Enough cries into the night
Oh, let my lost story finally write

(Coda)

And listen .. for the northern lights
They'll come and go,
But love's your birthright
Like the Northern Lights
Love those Northern Lights
