

Real

*I have failed
Been forgotten and assailed
Never got my shot
And now I'm locked up in jail
Will not go back
Won't cry out, go on attack
Neutral is my best friend
Who says don't overreact
Yet the love in my heart won't go away
Without certainty no hero's on the way!
Because I am real
Out in front, cured like steel
I'm unbroken, but lost faith to heal
This pain is real
So damn real...
Rock bottom's low
There's a price back up I know
But if I don't breakthrough
Gold can't cover debts I owe
Maybe I can get one last chance?
Gain favor, dismiss past circumstance!
Because I am real
Out in front, cured like steel
I'm unbroken, but lost faith to heal
My pain is real
Too fucking real ...
—What if I go deep inside—remember why I'm still alive?
—it's time I finally arrived—time I finally arrived!!
Because I am real
Out in front, cured like steel
I'm unbroken, ignore the missing wheel
My life is real!
My life is real!
My life is real!
... stamped with fate's sacred seal!*
