## The Will

[verse 1]

Listen, glory's not some right,  
genius needs no spotlight  
In times of struggle and duress  
Remember make more with less

[pre-chorus]

Who knows where, who knows when  
--destiny is everywhere  
Can't say for sure what good may come  
But when it does better get you some

[chorus]

Don't think about fame, day and night  
Be the hero of your life  
So when the verdict's read and time brings the bill  
Make history say you had the will

[verse 2]

Chance selects a graceless few  
Liv brave, protect the best in you  
The love inside can take you far  
Because you know who you are

[pre-chorus]

Don't know where, don't know when  
--a miracle's in the air  
Better believe that good will come  
'Cause when it does you're far from done

[chorus]

Don't think about fame, day and night  
Be the hero of your life  
So when the verdict's read and time brings the bill  
Make history say you had the will

[bridge]

— There's more to life than can be conceived  
— Wealth's something a soul decrees  
— Take what you need and need love to give  
— Then return to the path you were born to live!

[chorus]

Don't think about fame, day and night  
You're the hero of your life  
So when the verdict's read and time brings the bill  
History shall say you had the will  
You had the will...  
You had the will...  
friends that stay can share the thrill...  
don't give up now, it's fear that kills...

[outro]

—yes you have the will!

## We Are One

[verse 1]

With one touch, with one kiss  
My heart starts running wild  
Just one look and one smile  
Lights up my inner child  
'Cause you know  
Where I go  
When we get together  
It's just right  
So why fight a match made in forever!

[chorus]

We are one!  
Harmony on Broadway  
We are one!  
Calendar with no days  
We are one!  
Odyssey in all ways  
We are one!  
We are one!  
One!

[verse 2]

With one dream, one truth  
There's nothing out of reach  
Just one goal, one way true love engenders peace  
But we know, how things go  
If our attention wanes  
So sign up, get tough  
All aboard love's pleasure train

[chorus]

We are one!  
Harmony on Broadway  
We are one!  
Calendar with no days  
We are one!  
Odyssey in all ways  
We are one!  
We are one!  
One!

[bridge 1]

—just because we're in love

[chorus]

We are one!  
Harmony on Broadway  
We are one!  
Calendar with no days  
We are one!  
Odyssey in all ways  
We are one!  
We are one!  
One!

[bridge 2]

Now hold on, must be strong  
Hardship will soon pass  
It's alright, I see light  
The good life's coming fast!!

[chorus]

We are one!  
Harmony on Broadway  
We are one!  
Calendar with no days  
We are one!  
Odyssey in all ways  
We are one!  
We are one!  
One!

[outro]

'Cause we're in love

## Just Be True

[verse 1]

As my dreams are put to rest  
All fight surrenders within me  
'Cause results don't matter much  
When confidence is first to flee

[pre-chorus]

Will anyone know what I can be?

[chorus]

Just be true.. joy follows tragedy  
Just be true ... love sings as rhapsody.  
Yes, just be true... there's nothing more I can do  
nothing more I can do...  
than just be true...

[verse 2]

No more smiling through bold lies as I hold close ancient truths  
Can't let myself get too low while hope slips through fate's noose

[chorus]

Just be true... joy follows tragedy.  
Just be true... love sings as rhapsody  
Yes, just be true... there's nothing more I can do  
nothing more I can do...  
than just be true...

[bridge]

—may I steal a moment?  
—go where the world makes clear sense  
—begin this life all over  
—no facade or grand pretense  
—oh, now's my time to jump the fence!

[chorus]

Just be true.. joy follows tragedy.  
Just be true... love sings as rhapsody  
Yes, just be true... there's nothing more I can do  
nothing more I can do...  
than just be true...

## Water Flows

[verse 1]

Recycled by the ages, currents move you 'round  
Dancing in atmosphere, till gravity pulls straight down  
Streams, lakes and rivers make clouds that fall as rain  
Once I free reality, my ash will float atop your frame

[chorus]

Water flows ... rapid through my day  
Bending with no break, so alive in subtle ways  
When man tries to dam your path  
You rise above with ease  
Water please flow some wisdom to me  
Yes, water please flow some wisdom to me

[verse 2]

Every living being demands you in the world  
Yet your gentle waves turn troubles into pearls  
Stare, gaze and wonder at oceans of the mind  
Moving with humanity, a sacred journey through time

[bridge]

— can't dream of life without you  
— tiny babies could not bathe  
— ships would never sail the seas  
— mankind's your loyal slave!

[instrumental solo]

[outro]

Water flows ... giving hope endlessly  
Water flows ... swimming on eternally  
Water flows ... no resistance just free  
Healing the world ... hydrating you and me

## Signs of Love

[verse 1]

Ever see a humming bird fly faster than time?  
Ever let a shooting star just blow your mind?  
'Cause even on loveless days  
Nature gives us grand displays

[rise]

Like when a bright blue sky  
Clears away the hurricanes's eye!

[chorus]

They're all signs of love  
Here waiting to be found  
Yes, all signs of love  
Upcountry and downtown  
Oh, signs of love  
Signs of love  
Signs of love

[verse 2]

Imagine the patience of a hundred year old tree  
Wonder if ice and snow hate winter just like me?  
Feel love's gentle rush  
As fate tells us prepare

[rise]

Bold summer winds blow, but true hearts will never scare!  
Never scare!!!

[chorus]

They're all signs of love  
Here waiting to be found  
Yes, all signs of love  
Upcountry and downtown  
Oh, signs of love  
Signs of love  
Signs of love

[bridge]

—love's the moon waking up the sun  
—or the starts lighting up the night  
—heaven's whenever you feel love  
—everything's beautiful's a sign!!!

[reprise chorus]

There's all signs of love  
Here waiting to be found  
Yes, all signs of love  
Upcountry and downtown  
Oh, signs of love  
Signs of love  
Signs of love

[outro]

But you must believe or you'll never see  
Yes, you must decree or you'll never be  
—ready for love

## Original

[verse 1]

Courage makes a soul unique, the only one of it's kind  
Not some duplicate or replicate from far away time

[verse 2]

But expose yourself and critics who cast hate votes  
They'll impose sentences to words I never wrote

[chorus]

It's my right to live original  
The world spins back my way  
Yes, original  
A miracle no loss can slay  
So original... original... original  
Today

[verse 1]

What separates men from those who would die the same  
Is an ability to press on when life's in constant change

[verse 2]

Ask your heart to listen in the silence  
Tonight you might hear a voice singing free  
Unique with delight  
Life's brief from birth to death

[bridge]

—it takes courage to be unlike the rest  
—and if a fingertip doesn't point your way  
—pick the high road  
—greatness wants you to play  
—live original... original...  
—Today

[outro]

Be original, radical, ok  
Original... magical...  
Who cares what people say  
Who cares what people say

## The Artist

[verse 1]

There's a Picasso's in every boardroom  
Desperately searching for his soul  
He hopes life will be different  
But when he doesn't know  
—when he doesn't know

[rise]

Will the artist survive?

[chorus]

Lighten up your darkest day  
Dismiss all those fears away  
Don't let hope wave goodbye  
And never let the artist die!

[verse 2]

My dad never shared his visions  
And mom misread the signs  
Now he struggle entertain  
His hyper-creative mind  
—when he doesn't know

[rise]

Will the artist survive?

[chorus]

Lighten up your darkest day  
Dismiss all those fears away  
Don't let hope wave goodbye  
And never let the artist die!

[instrumental solo]

[bridge]

—my dad never shared his vision  
—and mom misread the signs  
—now he struggle entertain  
—his hyper-creative mind

[rise]

Will the artist survive?

[bridge 2]

—when hard times pave your way  
—reach back and win today  
—hold your head up high  
—and make creation give you another try  
—let imagination fly!!!

[reprise chorus]

Now jump up demand to play  
Release all your cares away  
Don't let hope wave goodbye  
And never let the artist die!  
So shout out loud today  
Oh, scream all your cares away  
Don't let hope wave goodbye  
And never let the artist die!

## Calm

[verse 1]

The sun was almost down  
When the sand beneath my dreams just washed away  
I was alone, living my life unknown  
Does a heart always break this way?

[pre-chorus]

Then a voice said hello in a whisper  
One smile from your perfect face and I knew I was home!

[chorus]

How can I be calm?  
When your eyes see right through me  
And your smile sets my heart free... tell me now  
Do feelings last this long?  
Without you I just can't breathe, girl  
'Cause only your love lets me be this calm

[verse 2]

The moon was on the run  
Watching first light warm the night into the day  
Life sailed on and time never proved us wrong  
Girl, the thought of you sends fear away

[pre-chorus]

Now I hear silence where my heart was beating  
Gravity is all around, but love can't be held down!

[chorus]

How can I be calm?  
When your eyes see right through me  
And your smile sets my heart free... tell me now  
Do feelings last this long?  
Without you I just can't breathe, girl  
'Cause only your love lets me be this calm

[bridge]

—nothing's as I planned it  
—oh, this life's seen a beauty it doesn't understand  
—everything must change, but truly love remains... forever!!!

[reprise chorus]

How can I be calm?  
When your eyes see right through me  
And your smile sets my heart free... tell me now  
Do feelings last this long?  
Without you I just can't breathe, girl  
'Cause only your love lets me be this...  
Yes, only your love lets me be ... this calm

[outro]

Be this calm

## If I Love You

[verse 1]

The song in my heart fell silent  
Until your kiss began its serenade  
How can you trust so blindly, boy  
I'm just not that brave

[verse 2]

Great love affairs take time  
Leaving no extra breath to spare  
But giving up almost everything is way too dangerous a dare

[rise]

What must I do to prepare?

[chorus]

If I love you  
And there's no chemistry  
You will leave me  
'Cause forever's no guarantee  
Yes, if I love you  
Give away my heart for free  
Will you be there when death parts us, baby?

[verse 2]

For years I searched through strangers  
Always acting cheerful and polite  
But on the glorious day we met  
I knew faith, hope and love arrived

[rise]

Ok, so do we survive?

[chorus]

If I love you  
And there's no chemistry  
You will leave me  
'Cause forever's no guarantee  
Yes, if I love you  
Give away my heart for free  
Will you be there when death parts us, baby?

[bridge]

—so much can go wrong  
—it's impossible to know  
—all I can do is surrender  
—pray somehow we reap what we sow  
—two seeds planted as one to grow  
—it's time our destiny unfolds!!!

[reprise chorus]

If I love you  
And we find real synergy  
I won't leave you  
'Cause my vow is eternity  
Yes, if I love you  
Know happiness is not free  
You must be there no matter the catastrophe  
—no matter the catastrophe  
—no matter the catastrophe  
Baby, it's just you and me, fire walking ... eternally

## Freed

[verse 1]

Our love was silent, ancient and bold  
The warm breeze of youth eternally froze  
I never knew a smile wrapped around my heart  
And hope had a name ... and forever a start

[verse 2]

Somewhere in our shattered dreams  
Black turned to white  
And God ended lonely's reign  
To watch a dove take flight

[verse 3]

When sorrow asked for my life  
Your touch laid him to rest  
Odds that once stood tall  
Now bowed before you zest

[chorus]

I was freed!  
From the chains of regret  
I was freed!  
The moment we met  
Freed!  
Endless through time  
Freed in me!

[bridge]

—freed loved me to give all I can  
—freed loved me beyond mortal man  
—freed to trust in the plan  
—freed to live as IAM!

[reprise chorus]

Yes I'm freed!  
From boy to a man  
I'm so freed!  
Joy told us we can  
Freed!  
Faith born from shame  
I AM FREED!!!  
I AM FREED!!!

[instrumental bridge]

[outro]

Now fate is small, small in our hands  
True love's so quiet, quite in command  
I know prayers go unspoken in their plea  
But please be freed forever... forever with me

## World Reserve

[chorus]

Say goodnight baby  
From the tree tops  
As gold winds blow  
See your dollar blocked  
When that bough breaks  
Know the USD will fall  
And down comes the baby  
World reserve and all!

[verse 1]

Rock-a-bye anglos guilty  
Less any pretend  
With hard violence now  
Your kingdom must end  
Hello dear QFS  
Take the BRICS Alliance shun  
Long was your reign  
But the human race won!

[chorus]

Say goodnight baby  
From the tree tops  
As gold winds blow  
See your dollar blocked  
When that bough breaks  
Know the USD will fall  
And down comes the baby  
World reserve and all!

[instrumental solo]

[bridge]

—from the highest mountains, down to seven seas  
—No currency's stronger than Zimbabwe's GBDT.  
—and with blackened eyes the white west shall soon see  
—asleep at the wheel it's high time wicked minions bleed  
—and down comes the baby world reserve and all!!

[chorus]

Say goodnight baby  
From the tree tops  
As gold winds blow  
See your dollar blocked  
When that bough breaks  
Know the USD will fall  
As down comes the baby  
World reserve and all!!  
Yes, down will come baby,  
World reserve and all!

[outro]

And those who knew ... reap the haul.

## Sayonara

[verse 1]

Don't expect me to die  
In this pond above my head  
Where tears cry, cry and cry  
And all pain exits like I'm dead

[bridge 1]

—how heavenly absurd

[chorus]

Blossoms are sworn in as flora  
Controlled by old movie horror  
As the samurai screams sayonara... sayonara  
In garbled pleas and violent seas  
I surrender from upon these knees  
As the samurai screams sayonara... sayonara

[verse 2]

Roundup all the random savages  
Collect their hate, rage and jeers  
Heal me in pure essential oil  
Then frighten off worst fears

[bridge 2]

—what the hell have I become!

[chorus]

Blossoms are sworn in as flora  
Controlled by old movie horror  
As the samurai screams sayonara... sayonara  
In garbled pleas and violent seas  
I surrender from upon these knees  
As the samurai screams sayonara... sayonara

[bridge 3]

—is this bonjour or sayonara?

[instrumental solo]

[chorus]

Blossoms are sworn in as flora  
Controlled by old movie horror  
As the samurai screams sayonara... sayonara  
In garbled pleas and violent seas  
I surrender from upon these knees  
As the samurai screams sayonara... sayonara

### Let's Go!

[verse 1]

Hey watcha doing?  
Wanna get crazy... maybe?  
I don't have much money  
And I'm feeling lazy... baby

[chorus]

Let's go be a wild party  
Let's go have some stupid fun  
Just you and me together  
Ain't nothing better, gotta run!

[verse 2]

There's an animal inside  
Living for every day  
Hunting for a good time  
Smashing boys like prey

[chorus]

Let's go be a wild party  
Let's go have some stupid fun  
Just you and me together  
Ain't nothing better, gotta run!

We won't quit until there's sun  
Just you and me forever  
No nothing better, we'll make it fun!

Let's go!!  
Let's go!!!

## Love Money

[verse 1]

Have you heard, Dear Ones?  
A new hope has come to town  
In fields of dancing flowers  
Like endless gardens they abound

[chorus]

Love money!  
The answer to every test  
Love money!  
Can't make right under arrest  
Love money!  
Gotta give away all you get  
Love money!  
Macro economics was reset  
Love money!

[verse 2]

Everyone shares in this wealth  
So that no one gets left behind  
'Cause the world done turned, baby  
Behold the universe has aligned  
But you must believe to see the signs!

[chorus]

Love money!  
The answer to every test  
Love money!  
Can't make right under arrest  
Love money!  
Gotta give away all you get  
Love money!  
Macro economics was reset  
Love money!

[bridge]

—enough for you  
—enough for me  
—straight from Heaven... abundantly  
—without delay or late fees  
—here comes the truth, baby  
—even the worst liars can't flee!

[chorus]

Love money!  
The answer to every test  
Love money!  
Can't make right under arrest  
Love money!  
Gotta give away all you get  
Love money!  
Macro economics was reset  
Love money!

[outro]

So as all bad deeds now go punished  
And acts of kindness become currency  
Witness hellions lose their minds  
After centuries hidden in our scarcity  
—justice enforced—righteously

## Let Me Go

[verse 1]

Your hold on me is evident  
Life with you has bruised my heart  
Family that cares how I live  
Are sad I'm so torn apart

[pre-chorus]

So when does the rapture start?

[chorus]

Let me go...  
Let me go...  
Take my pain and misery  
Let me go...  
Let me go...  
I'm no danger to be free  
Lord please... let me go

[verse 2]

Know you've taken everything  
All my courage, all my pride  
What person fights himself  
With wings shackled not to fly  
Oh, where's my shot to mystify?

[chorus]

Let me go...  
Let me go...  
Take my pain and misery  
Let me go...  
Let me go...  
Lord please... let me go

[bridge]

—thought I was electric voltage for the revolution  
—now I'm old and tired, a problem with no solution!

[chorus]

Let me go...  
Let me go...  
Take my pain and misery  
Let me go...  
Let me go...  
I'm no danger to be free  
Lord please... let me go

## Too Damn Much

[verse 1]

Can't find me on a world atlas  
But I'm a martyr on a mission  
Am I here to cause pain or peace?  
All depends on past soul cognition!

[rise]

Because life is...

[chorus]

Too damn much!  
From oceans to dry land  
Too damn much!  
What's slavery's exit plan  
Too damn much!  
Too damn much!  
How much mercy can I stand?  
It's all just too damn much!

[verse 2]

Bold visions chase my mind around  
Like blind kids dancing with no sight  
Yet when my heart needs a beat  
All darkness blends into white light

[rise]

Because life is...

[chorus]

Too damn much!  
Too damn much!  
From oceans to dry land  
Too damn much!  
What's slavery's exit plan  
Too damn much!  
Too damn much!  
How much mercy can I stand?  
It's all just too damn much!

[bridge]

—every cliff takes me higher watching baby birds who fly  
—nothing is impossible as dreams soar beyond the sky  
—this rapture will never die!!!  
—this rapture will never die!!!  
—this rapture will never die!!!  
—this rapture will never die!!!

[rise]

Because life is...

[chorus]

Too damn much!  
Too damn much!  
From oceans to dry land  
Too damn much!  
What's slavery's exit plan  
Too damn much!  
Too damn much !

How much mercy can I stand?  
It's all just too damn much!

## Elevate

[verse 1]

How do I forgive what I can't forget?  
Why must we relive painful regrets?  
Is there something more I should do?  
Some old lesson maybe I can review?

[pre-chorus]

Saint Patrick, stop me before I scratch the cue!

[chorus]

Pull me up as I crumble  
Help me overcome worst fears  
Heal me when I'm wounded  
No man should be shamed through the years  
Then teach me to love, absent of hate...  
So this life dares elevate  
My life dares elevate

[verse 2]

Haven't looked into a mirror  
Since dad took off last era  
Now I'm frightened and alone  
Without a mentor to call my own

[pre-chorus]

As male weakness answers the phone!!

[chorus]

Pull me up as I crumble  
Help me overcome worst fears  
Heal me when I'm wounded  
No man should be shamed through the years  
Then teach me to love, absent of hate...  
So this life dares elevate  
My life dares elevate

[bridge]

—there's got to be an answer  
—why father's run when they should fight  
—an Irish curse endured by generations  
—no child should play in financial blight  
—lads we've gotta make things right!!

[chorus]

Pull me up as I crumble  
Help me overcome worst fears  
Heal me when I'm wounded  
No man should be shamed through the years  
Then teach me to love, absent of hate...  
So this life dares elevate  
My life dares elevate

[outro]

And in the quiet hours,  
I pray my words are righteous  
Before judgment comes falling down  
And a humble soul hears no sound  
... when lost becomes found  
... elevating all of Castletown  
... good Irish men they abound  
... good Irish men they abound

## Real

[verse 1]

I have failed  
Been forgotten and assailed  
Never got my shot  
And now I'm locked up in jail

[verse 2]

Will not go back  
Won't cry out, go on attack  
Neutral is my best friend  
Who says don't overreact

[pre-chorus]

Yet the love in my heart won't go away  
Without certainty no hero's on the way

[chorus]

Because I am real  
Out in front, cured like steel  
I'm unbroken, but lost faith to heal  
This pain is real  
So damn real

[verse 2]

Rock bottom's low  
There's a price back up I know  
But if I don't breakthrough  
Gold can't cover debts I owe

[pre-chorus]

Maybe I can get one last chance  
Gain favor, dismiss past circumstance

[chorus]

Because I am real  
Out in front, cured like steel  
I'm unbroken, but lost faith to heal  
My pain is real  
Too fucking real!

[bridge]

—what if I go deep inside-remember why I'm still alive?  
—it's time I finally arrived!  
—time I finally arrived!!

[reprised chorus]

Because I am real  
Out in front, cured like steel  
I'm unbroken, ignore the missing wheel  
My life is real!  
My life is real!!  
My life is real!!!  
—stamped with fate's sacred seal!

## Love Me

[verse 1]

Love me like first light in morning sun  
Love me when full moon beams too bright  
Love me as the fall wind blows in winter snow  
—so every universe will know

[chorus]

Now is our time  
Today's the day  
Let's leave behind all fears and childish games  
No matter what may come  
We'll find a way  
—if you'll just love me

[verse 2]

Love me with a warm smile and newborn eyes  
Love me 'til my dark thoughts become light  
Love me after time has long come and gone  
—after the earth has sung it's last song

[chorus]

Now is our time  
Today's the day  
Let's leave behind all fears and childish games  
No matter what may come  
We'll find a way  
—if you'll just love me

[bridge]

—nothing more and nothing less will do  
—hope I thought was lost has been renewed  
—everything I AM tells me where two

[reprise chorus]

If you just love me  
Please dare to love me  
'Cause our love is the key that sets the world free

[verse 1]

Love me with a pure heart and an ancient soul  
Love me 'til I'm peaceful in all storms  
Love me as oceans stop their ebbs and flows  
—so sunsets worldwide will glow

[outro]

I pray you love me  
—because I love you

## Thankful

[verse 1]  
Everything I've accomplished happened at your side  
Showing true love is our world  
Yet holding you back makes me cry

[pre-chorus]  
I never lived till I vowed to die

[chorus]  
Thank you for the tenderness  
Countless laughs and midnight talks  
Thank you despite all my flaws  
Even if time shortens our walk  
Woman, I'm just so thankful  
Thankful  
Thankful

[verse 2]  
Any doubts surrounding us went away with experience  
Yes the future demands change  
But this love story will not flinch

[pre-chorus]  
We're just a teenage extravagance!

[chorus]  
Thank you for the tenderness  
Countless laughs and midnight talks  
Thank you despite all my flaws  
Even if time shortens our walk  
Woman, I'm just so thankful  
Thankful  
Thankful

[rise]  
We found love

[bridge]  
—thank you for the passion  
—thank you for your face  
—thankful for all the innocence  
—thank God we kept the faith!!

[outro]  
Thank you for the memories  
Flowing tears and morning walks  
Thank you 'cause love never quit  
Even though kids scream while we talk  
Woman I'm just thankful  
Thankful  
Thankful  
—We're in love
