

"With You"

Music by D. Mayer
Lyrics by Alexander

The time has come, and now you're leaving, so we wipe away the tears
and say goodbye
I can't believe this chapter's over 'cause when I look into your heart I see
my eyes

And tender moments that we shared, live inside of me, someplace where
fond memories survive

I will always be with you, anywhere you are
One forever, me with you,... love's our northern star

Through the years we have struggled to understand each other's sense of
right and wrong
Yet we both know the joy and sorrow of two lonely hearts that finally find a
home

The only question that remains... will this romance end if I never see your
face again

I will always be with you, anywhere you are
One forever, me with you... love's our northern star

And if you come back to visit me
I'll make a welcome sign for you
No words will be said, simply turn your head
I'll be there... standing by your side

I will always be with you, anywhere you are
One forever, me with you... love's our northern star
I will always be with you -- I will always be with you
Anywhere you are -- everywhere you go

Always with you quietly -- only we will know

In new morning sunlight or the dark of night

You're a part of me, I'm a part of you -- a part of you -- 'till the end of time
