

# "Love Me"

Love me like first light in morning sun. Love me when full moons beam too bright.

Love me as the fall wind blows in winter snow.

--So every universe will know--

(chorus)

Now is our time, today's the day.

Let's leave behind all fears and childish games.

No matter what may come, we'll find a way... if you just love me.

Love me with a fresh smile and newborn eyes.

Love me untill dark thoughts become light.

Love me after time has long come and gone.

--And the earth sings its swan song--

Now is our time, today's the day.

Let's leave behind all fears and childish games.

No matter what may come, we'll find a way... if you just love me.

--Nothing more and nothing less will do! -- hope I thought was lost has been renewed!!

--Everything I am tells me were two!!!

if you just love me ...

please dare to love me ...

'Cause our love is the key that sets the world free...

Love me with a pure heart and an ancient soul.

Love me that I'm peaceful in all storms. Love me as oceans stop their ebbs and flows.

Yes, sunsets worldwide shall glow.

... I pray you love me ...

... because I love you...
