

## Let Me Go

Your hold on me is evident.  
Life with you has bruised my heart. Family that cares how I live,  
are sad I'm so torn apart.

So when does the rapture start?

(chorus)

Let me go.

Let me go.

Take my pain and misery.

Let me go.

Let me go.

I'm no danger to be free.

Lord please... let me go.

Know you've taken everything,  
all my courage, all my pride;  
What person fights himself,  
with wings shackled not to fly.

Oh, where's my shot to mystify?

Let me go. Let me go.

Take my pain and misery.

Let me go. Let me go.

I'm no danger to be free.

Lord please... let me go.

(bridge)

Thought I was electric voltage for the revolution; Now I'm old and tired,  
a problem with no solution.

Let me go.

Let me go.

Take my pain and misery.

Let me go.

Let me go.

I'm no danger to be free.

Lord please... let me go...
