

## **“Best in Me”**

Music by D. Mayer

Lyrics by Alexander

Jaded eyes never let my spirit fly  
No one took the time and I was cast aside  
Then you caught me by surprise, a friendship came alive  
... and everything crystallized

You bring out the best in me, when hope is nowhere to be found  
You dare possibility, then set it free, and never let me down  
With love and sincerity, you always said I would succeed  
Now the best in me lives on as your legacy

Any time hesitation seized my mind  
You knew just what to do and made me try again  
Those lessons still abound and though I'm not in town, your voice  
is all around

Day by day it's hard to walk the line, following a path that's  
undefined  
Trust in tomorrow, fight through the fear  
'Cause the truth inside your heart is beating perfectly clear

You demanded the best in me and picked me up when I went  
down  
Believing that honesty would set me free, your words are still  
profound  
Against all adversity... I just knew I could achieve  
Thanks for everything, with love we made history  
Because what is true... in all I do ... comes from the best in you
