

THE ARTIST

Don't let hope wave goodbye and never let the artist die

There's a Picasso's in every boardroom
Desperately searching for his soul
He hopes life will be different, when he doesn't know

(chorus)

Lighten up your darkest day
Dismiss all your fears away
Don't let hope wave goodbye and never let the artist die

But dad never shared his vision and mom misread the signs
Now only struggle entertains his numb creative mind

Lighten up your darkest day
Dismiss all your fears away

Don't let hope wave goodbye and never let the artist die

(bridge)

When hard times pave your way, reach back and win the day Hold your
head up high 'til creation gives you another try
Let your imagination fly

(solo)

Now jump up demand to play Release all your cares away
Don't let hope wave goodbye and never let the artist die
So shout out loud today
Oh, scream all your cares away

Don't let hope wave goodbye and never let the artist die
