

## Saint Peter

{Intro}

Yo ... I need heaven to hear this...

{Verse}

Been dreaming about tomorrow for a long time  
But today made me sick, there's no hope left on my vine  
When I look inside myself, I see a tired, beaten man  
Who never thought he'd be this weak to need a helping hand

{Pre-Chorus}

Because life gets harder when you play pretend

{Chorus}

Saint Peter... teach my eyes 'cause they cannot see  
Saint Peter... guide me through this naked journey  
Saint Peter... open your gates, send some heaven down to me  
Brother... I'm begging here please

{Verse}

Now I watch the world wiz on by  
Less common sense, leaders who distract and deny  
My star ain't too bright, I'm down to my last cent  
Feeling like I'm slow dying a violent death

{Pre-Chorus}

Hope things get better, just so damn hard to give my best

{Chorus}

Saint Peter... teach my eyes 'cause they cannot see  
Saint Peter... guide me through this naked journey  
Saint Peter... open your gates, send some heaven down to me  
Brother... I'm begging here please

(Bridge)

—I'm lost without direction, back where it all began  
—Show me some love and devotion  
—Terminate all this endless grief  
—Lord, believe... I'm a human angel underneath!!!!

{Chorus}

Saint Peter... teach my eyes 'cause they cannot see  
Saint Peter... guide me through this naked journey  
Saint Peter... open your gates, send some heaven down to me  
Brother... I'm begging here please  
Saint Peter... I'm down on bended knee  
No grace left ... it's just us and divinity  
Saint Peter... be kind and review my life story  
Look inside my soul, , judge all works and deeds

{Outro}

Then please open your gates...  
make a little room for me...
