

ORIGINAL

**Courage makes a man unique, The only one of his kind
Not some duplicate or replica from another time
But expose yourself to critics who cast blind votes
And they'll impose harsh sentences to words you never wrote**

(chorus)

**Today's your day to be original
Live original, Let the world spin back your way
If you're here then you're original
Original**

**What separates men from those who would all die the same
Is an ability to press on
Life's always in constant change**

**Ask your heart to listen in the silence of the night
It might hear a hero's voice singing proudly with delight**

(chorus)

**Life's hard from birth to death
It takes effort to be unlike the rest
If fingertips don't point your way
Take the hard road
It will lead to your best**

**Today's your day to be original
Live original
See the world spinning your way
To be alive means there's nothing to hide
Be Original ... every single day
Original ... live it today
Who cares what people say
Who cares what people say
Who cares what people say
Who cares what people say
Who cares what people say
Who cares what people say**
