It's All Good In Hollywood (opening)

[verse 1]

Pressure on premiere night
Everything must go right
No playing small—it's the big time
Paparazzi frenzy, teenage hero envy
Only one thing left to start the show

[chorus]

Cue the movie star, millions adore him
Chase is the hope and light of their lives
I'm a proud stage mom
My baby made it!
Just like I always said he would
—yeah, it's all good in Hollywood!

[verse 2]

Living for the spotlight
Designer jeans are skintight
Dublin's the "it girl" en vogue
Talented and shameless, driven to be famous
Pushing her face all-across the globe

[chorus]

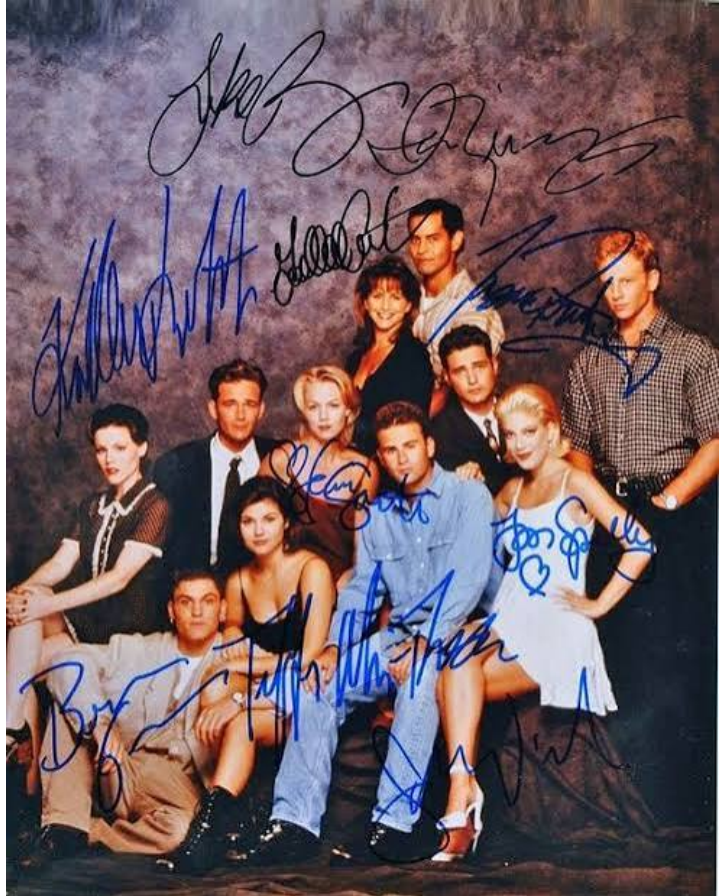

Adolescent fantasy, that's how they make it
Today she's the spark of list in his eye
Just don't forget the arm charm
Because talent adorns her!
Success with love from the hood
—yeah, it's all good in Hollywood!

[bridge]

Always in the hot lights
His legend reaching new heights
A public life is never private
Mother must invent him
'cuz showbiz leaves love empty
He's not the star they think he is

[reprise chorus]

But watch him smile with glee
to keep cameras popping
Yet when he's alone there's no joy in life
Let truth be told,
My baby's a brutal actor!
Destined to be a golden Oscar
—yeah, it's all good in Hollywood!
—yeah, it's all good in Hollywood!!
—yeah, it's all good in Hollywood!!!

Bright New Tomorrow

[verse 1]

Parents say in this life I can be anything
Study hard, pay some dues and become everything
But sometimes I cannot see greatness happening
Is there something special meant for me?

[pre-chorus]

— I am still blossoming

[chorus]

There's a bright new tomorrow just beyond today
Yes a bright new tomorrow, where I'll dare to find my way
And I hope as life unfolds I'll have fun up 'till the end
Without wondering if tomorrow's my very best yesterday

[verse 2]

When I'm grown and have seen many springs
Married a man, had a child, traveled extensively
I may wonder if any painful memories
Pushed away a better life for me?

[pre-chorus]

— Fate is a funny thing

[chorus]

There's a bright new tomorrow just beyond today
Yes a bright new tomorrow, where I'll dare to find my way
And I hope as life unfolds I'll have fun up 'till the end
Without wondering if tomorrow's my very best yesterday

[bridge]

— Years on the road will make me grow old—
— Until the final phase of my life—
— So thank you for each day, always I will say—
— Trust my heart, it's where the journey starts!!

[chorus]

There's a bright new tomorrow, just beyond today
Yes a bright new tomorrow, where God makes all dreams ok
Yet I know as life unfolds I must be grateful until the end
No more cares about tomorrow being my very best yesterday

[outro]

... as long as the little girl still gets to play ...

Cliche

[verse 1]

My life was stormy, but your smile had a silver lining
Then once the bloom was off my rose your indifference left me crying

[verse 2]

Now today's become tomorrow
And the sun hasn't come back up
Have you ever dared to smell love's coffee in your cup

[chorus]

You didn't lead, didn't follow
Just demanded your own way
Everything about you screams of yesterday
Get off your knees, don't bother to beg
I'm here to break the news, baby
You're a cliché

[verse 2]

Remember watching me cry as you crawled under your rut
Infidelity forced me to be strong when you cheated with that slut

[verse 3]

Welcome to it's way too late
Because no truth will set you free
And if I ever love you again, shame, shame, shame on me

[bridge]

Lady Luck hold your dice 'cause my heart is on the mend
I refuse to question love again your cliché won't repeat again
Oh, Lord he will be the end

[reprise chorus]

You didn't lead, didn't follow
Just demanded your own way
Everything about you screams of yesterday
So get off your knees, don't bother to beg
This is our goodbye, baby
Just go away

It's Just Time

[verse 1]

Wake up, angel, this is your day
noble ideals, swirl at light speed
Open your heart, give to share love
fish for big dreams, swimming up stream

[pre-chorus]

And when you become distressed,
listen for love's call and shy confess 'cause ...

[chorus]

It's just time to let your white light shine
it's just time you left the past behind
It's just time that all the stars aligned
it's just time ... you'll be fine

[verse 2]

Think all good thoughts, act with kindness
take the high road, never look back
Release old fears, embrace each new day
lead with intrigue, don't just believe

[pre-chorus]

And when you've passed every test
cry loud with truth in proud protest 'cause ...

[chorus]

It's just time to let your white light shine
it's just time you left the past behind
It's just time that all the stars aligned
it's just time ... how sublime

[bridge]

Sometimes life gets hard, do your best to grin
Know the deepest bond we share—
is that human beings are alive to live free!

[reprise chorus]

It's just time to let your white light shine
it's just time you made this mountain climb
yes, it's just time hope came online
it's just time ... you're so divine

[outro]

Rest now, angel, know that all's well
you are enough, made from right stuff
Dream with passion, trust the future
things are changing, you are amazing
... it's your time

Heartthrob - Talentless - Lyrics

Daylight

[verse 1]

Time simply can't explain why life's so mundane
there's no common thread
Seems nothing that I do
actually comes true
though daydreams dance in my head

[pre-chorus]

I believed the stars shined upon me
beaming hope and rays of love too

[chorus]

If heaven assigns all true birthrights
Faith must be my soul's daylight
How can I give up the fight?

[verse 2]]

Fly away high above today
Up in the clouds
I could be so happy
Dear God guide where you want me

[pre-chorus]

I believed the stars shined upon me
beaming hope and rays of love too

[reprise chorus]

If heaven assigns all true birthrights
Faith must be my soul's daylight
What must I do to make things right?
What must I do to make things right?

[outro]

What must I do?
What must I do?

Girl With The Curls

[verse 1]

When morning light comes
And we wake up at home
Lying warm in our bed
Two bodies arise like dawn

[verse 2]

Long arms and legs cover me
Your breath gentle as a breeze
The world around us in chaos
But your beauty lays—timelessly

[pre-chorus]

Oh, girl with the curls you are my world

[chorus]

Your smile is my sunrise
And your laughter my peace
Yeah, girl with the curls
Our love will never cease
never cease

[bridge 1]

We ignore all the echoes,
Of things others called mistakes
Walk with me in the garden
Memories we still must make

[chorus]

Your smile is my sunrise
And your laughter my peace
Yeah, girl with the curls
Our love will never cease
never cease

[bridge]

We ignore all the echoes
Of things others called mistakes

[bridge 2]

Brown hair bouncing
in a teenage pipe dream
Tight curls running wild
Ever flowing and so free!

[outro]

And when the day ends exhausted
Wherever we are--let's kiss
A romance to be treasured
All things together
That's our wish!
We ignore all the echoes
Of things once called mistakes
That's our wish!

Heartthrob - Talentless - Lyrics

All Good Things

[verse 1]

I don't see you very often, distance has kept us apart
But memories of golden days are safe within my heart
Remember our wild-ass parties, B-movies that made us laugh
All the obstacles we overcame, why can't the good times last

[chorus]

Our best times came after midnight
A few still warm me with delight
Here's wishing you all good things
All good things
All good things
All good things

[verse 2]

E-mail's not quite a letter, we forget to make phone calls
Yeah, yesterday demands a beer, but BFE's a haul
We danced on Friday nights, ate Taco Bell, played Taboo
Talked philosophy with empty minds, like the world was brand new

[chorus]

Our best times came after midnight
A few still warm me with delight
Here's wishing you all good things
All good things
All good things
All good things

[reprise chorus]

Hope all good things just keep finding you
Every inch of us real
All best damn birthday calls
Jeopardy and wheel
Every inch of us reach
All good things
All good things
Hope all good things just keep finding you
All good things
Hope all good things just keep finding you
All good things

Love Me

[verse 1]

Love me with the first ray of the morning sun
Love me when the full moon beams no more
Love me as the fall breeze turns to winter snow
So the universe will finally know

[chorus]

Now is our time, today's the day
let's leave behind these fears and childish games
No matter what may come, we'll find a way...
if you just love me

[verse 2]

Love me like the twinkle in a newborn's eye
Love me till my dark thoughts become light
Love me after mankind has long come and gone
And Mother Nature sings her swan song

[chorus]

Now is our time, today's the day
let's leave behind these fears and childish games
No matter what may come, we'll find a way...
if you just love me

[bridge]

Nothing more and nothing less will do
hope I thought was gone has been renewed
Everything I AM tells me were two, if you'll just love me
please dare to love me
'Cause maybe our love is the key that sets the world free

[verse 2]

Love me with a pure heart and an ancient soul
Love me so I'm peaceful in all storms
Love me when oceans stop their ebb and flow
So silent angels everywhere will know

[outro]

I pray you love me ... because I love you

Stop The Bus

[verse 1]

Walking down a city street
No place to go, I'm feelin' upbeat
Like sunshine in urban air
Shinning bright, so world beware
Then I saw her—she drove right by
Central Park west—drivers' side
Damn was she fly!

[chorus]

Stop the bus, baby let's go out!
Just me and you, we'll dance all night.
Stop the bus, whatever's left I'll make it right
Please stop the bus... stop the bus...

[verse 2]

Hot morning brew, pastry fresh,
Girl, your face still takes my breath.
But without wings, eagles cannot soar
And love unclaimed steals what I adore

[pre-chorus]

Wait! There she is—on the Midtown express
Baby, hold up! Give me a chance to impress
Let me absorb that dress!

[chorus]

Stop the bus, baby let's go out!
Just me and you, we'll dance all night.
Stop the bus, whatever's left I'll make it right
Please stop the bus... stop the bus...

[bridge]

Whistles are blowin', engines keep roarin'
My heart froze, where were you goin'
Colors twirl, your brown eyes swirled
Now your smile is my world!

[chorus]

Stop the bus, baby let's go out!
Just me and you, we'll dance all night.
Stop the bus, whatever's left I'll make it right
Just stop the bus... stop the bus...

[outro]

Nothing will ever be the same
Be nice to know your name
stop the bus...
stop the bus...

Who Promised You Tomorrow

(chorus)

Who promised you tomorrow, is it endless like my sorrow
Who gave you the power to live sixty-one past the hour
I said tell me--who promised you tomorrow

[verse 1]

Remember when you gave us away
'Cause right now didn't mean today
Did you ever stop to cry
When you waved our love good-bye

(chorus)

I wonder if you ever really cared
About that good life we once shared
Wish I could reverse time
Go back and save my last dime

[bridge]

How'd right go so wrong
Why'd you let pride write our song
I believed in you, baby, I made the leap
But tragedy won't put this soul to sleep!

(Instrumental solo)

[reprise chorus]

Who promised you tomorrow
Is it endless like my sorrow
Who gave you power to live sixty-one past the hour
Now listen good--no one promises you tomorrow
Life's just time that we borrow
No one gives you the power to live sixty-one past the hour

[outro]

And someday soon...
my today will be your tomorrow

Scooby Snacks

[verse 1]

They drove a brightly colored van
Rollin' hard like cartoon ballers
Solving cold crimes with good hearts
Chasin' clues like divorce lawyers

[verse 2]

But each voice actor on a hit show
Barely makes enough scratch to eat
Instead of solving crimes like sidekicks
Al's yanking jobs off the beat

(chorus)

Don't take my favorite show away
It's a solid commercial brand
We all deserve another shot
Dear Mr. Exec--
Don't take my Scooby Snack!
Don't take my Scooby Snack!
Don't take my Scooby Snack!
... and bring my childhood back.

[verse 2]

The wet dog always rides upfront
as Velma tries to crack the code
Shaggy cleans up the puppy mess
While Fred taps Daphne on the road

[pre-chorus]

How 'bout them Scooby Snacks!!!!

[chorus]

Don't take my Scooby Snack!
Don't take my Scooby Snack!
Don't take my Scooby Snack!
... and bring my childhood back

[verse 2]

The wet dog always rides upfront
as Velma tries to crack the code
Shaggy cleans up the puppy mess
While Fred taps Daphne on the road

[chorus]

Don't take my Scooby Snack!
Don't take my Scooby Snack!
Don't take my Scooby Snack!
... and bring my childhood back

[outro]

Please don't let this show get whacked

Heartthrob - Talentless - Lyrics

Dear Mother

[intro]

Dear Mother...

[verse 1]

You always made me tell truth
unless I was too impolite
That's why you're as beautiful now
as when you held me through the night

[pre-chorus]

Dear Mother...

[verse 2]

Thank you for giving me life,
and drying all my sad tears
Thank you for the heart felt prayers
even the ones I couldn't hear

[chorus]

Dear Mother... ... you sacrificed yourself
Dear Mother... ... you sacrificed yourself

[bridge]

You let us play 'til the sun went down
Always said family was real wealth
Never complained of your own pain
while nursing us back into health

[pre-chorus]

Dear Mother...

[verse 2]

Thank you for giving me life
and drying all my sad tears
Thank you for the heart felt prayers
even the ones I couldn't hear

[chorus]

Dear Mother... you sacrificed yourself
Dear Mother... you sacrificed yourself

[bridge]

Even when the world came knocking on our front door;
Everything that I needed was at my beckon call.
How did you do it all!!!
How did you do it all!!!

[pre-chorus]

Dear mother...

[chorus]

Thank you for giving me life,
and drying all my sad tears;
Thank you for the heart felt prayers,
even the ones I couldn't hear.
Dear Mother... you sacrificed yourself.
Dear Mother... you sacrificed yourself.

[outro]

... and taught me service over self

It's All Good In Hollywood (reprise)

[verse 1]

Pressure on premiere night
Everything must go right
No playing small—it's the big time
Paparazzi frenzy, teenage hero envy
Only one thing left to start the show

[chorus]

Cue the movie star, millions adore him
Chase is the hope and light of their lives

[verse 2]

Living for the spotlight
Designer jeans are skintight
Dublin's the "it girl" en vogue
Talented and shameless, driven to be famous
Pushing her face all-across the globe

[chorus]

Adolescent fantasy, that's how they make it
Today she's the spark of list in his eye
Just don't forget the arm charm
Because talent adorns her!
Success with love from the hood
—yeah, it's all good in Hollywood!
