

Water Flows

(verse)

Recycled by the ages, currents move you 'round;
Dancing in atmospheres, till gravity pulls straight down.
Streams, lakes, and rivers make clouds that fall as rain; Once I free reality, my
ash will float atop your frame.

(chorus)

Water flows ... rapid through my day,
Bending with no break, so alive in subtle ways.
When man tries to dam your path you rise above with ease
Water please flow your wisdom to me ...
yes, water flow your wisdom to me.

(verse)

Every living being demands you in the world,
Yet your gentle waves turn troubles into pearls.
Stare, gaze, and wonder at oceans of the mind,
Moving with humanity, a sacred journey through time.

(chorus)

Water flows ... runs rapid through my day,
Bending with no break, so alive in subtle ways.
When man tries to dam your path you rise above with ease,
Water please flow some wisdom to me ...
yes, wisdom to me.

(bridge)

Can't dream of life without you—tiny babies could not bathe—Ships would never
sail the seas—mankind's a loyal slave!!!

(coda)

Water flows ... giving hope endlessly ...
Water flows ... swimming on eternally ...
Water flows ... no resistance just free ...
Healing the world ... hydrating you and me ...
