

WATER FLOW (Original)

(verse 1)

Recycled by the ages, currents move you 'round
Dancing in (the) atmosphere, till gravity pulls straight down
Streams, lakes, and rivers make clouds that fall as rain
Once I free reality, my ash will float atop your frame

(chorus 1)

Water flow ... runs rapid through my day
Bending with no break, so alive in subtle ways
When man tries to dam your path you rise above with ease
Water please flow your wisdom to me ... yes, water flow your wisdom to me

(verse 2)

Every living being demands you in the world
Yet your gentle waves turn troubles into pearls
Stare, gaze, and wonder at oceans of the mind
Moving with humanity, a sacred journey through time

(chorus 2)

Water flow ... runs rapid through my day
Bending with no break, so alive in subtle ways
When man tries to dam your path you rise above with ease
Water please flow your wisdom to me ... yes, water flow your wisdom to me

(bridge)

Won't dream of life without you, tiny babies could not bathe
Ships would never sail the seas without your constant waves
Oh, every single day (and night) ... mankind's a loyal slave!

(chorus 3)

Water flow ... runs rapid through my day
Bending with break, so alive in subtle ways
Water flows as pure love from the sky down to the sea
Water please flow more wisdom to me ... yes, water flow more wisdom to me

(coda)

Water flow lets the planet live free ...
Water flows as hope endlessly...
Water flow swims on (and on), eternally...
