

## Momma Bear

{Verse 1}

Feel my love sweet babies  
It's just us now, wild and free  
We can forage for food today  
A family humans cannot slay

{Verse 2}

And when the moon shines too bright  
We'll hibernate 'til morning light  
Born to thrive in the fresh air  
Led with love by momma bear

{Verse 3}

The time has come for us to roam  
As we must find another home  
Swim across the bay with me  
We'll find lots of fresh berries

{Verse 4}

And as spring comes into sight  
We'll carry on with grand delight  
Better days will soon appear  
Promise says your momma bear

{Verse 5}

Oh no! Watch the waves babies  
They look fierce and tall you see  
Please each of you take a paw  
I'll float us safe 'til nature thaws

{Verse 6}

But the lake rose to new heights  
We swam and tried to make it right  
Like fish in streams that aren't clear  
Not close enough to momma bear

{Storm Bridge}

{Verse 7}

Mercifully, I reached the dunes  
Sadly my cubs did not return  
I wonder if they still need me  
Heaven teaches all lessons learned

{Verse 8}

I still pray for their souls  
Missing them as I grow old  
Hope they know how much I care  
I'll always be their momma bear  
... yes, I'll always be their momma bear

{Verse 9}

Resting here I'll wait for them  
Sands so white, time's not my friend  
I'll curl up high so they can see  
A sleeping bear... waiting eternally.
